About me

Passionate front-end web developer with 2+ years of experience using **JavaScript**, **HTML5**, and **CSS3** to build all aspects of the user experience and user interface for client-facing landing pages. Specializes in using **ReactJS** and **Redux** to build websites. Highly organized and detail-oriented, constantly learning new technologies and upgrading current skills.

Seeking an entry-level **Front-end Developer position** to grow my career and contribute to the company's goals.

+ Experience in Operation Management. Collaborated with the stakeholders and internal teams. Identified and addressed problems and opportunities for the company.
+2 years of experience in Web-based and Mobile testing (Native & Hybrid). Proficient in Functional Testing (Regression Testing, Integration Testing, UAT, Interface Testing, GUI testing) and Non-functional testing (Usability Testing, Compliance Testing, Configuration Testing).

Technical skills

JavaScript	Pyton
HTML5	CSS3
ReactJS	Redux
